BANGOR DAILY WHIG AND COURIER.

BY SMITH & SAWYER. MONDAY, MARCH 13, 1854. VOLUME XX.....NUMBER 217.

Bangor Daily Whig and Courier

IS PUBLISHED

over the Kenduskeag Market, at Five Dollars a year, payable half yearly in advance. All subscriptions for less than a year to be paid in advance, and all orders for discontinuance must be accompanied by the amount due.

The BANGOR COURIER is published at the office of the Daily Whig and Courier, every Tuesday morning, at One Dollar Fifty Cents a year in advance, or Two Dollars if not paid in advance.

The publishers will not hold themselves responsible for any error that may occur, beyond the amount charged for the advertisement.

Mr. V. B. PALMER is agent for these papers. Advertisements left with him will be immediately forwarded.

McFarland's BURGLAR and FIRE PROOF SAFES!

THE undersigned would respectfully call the attention of the public to the above unqualified safeguard of property—proof against the devouring element of fire, as well as the most skilful burglar. To MERCHANTS, JEWELLERS, and BANK DIRECTORS, we would only say, examine them and the proofs, and you will be convinced of their superiority over all other manufacture.

Our business is done in a plain, straightforward way, without resorting to humbug or large talk.

Below is one of the many testimonials we are daily receiving from all parts of the country, and which speaks for itself. Messrs Fond, & Hitchcock's (the) Store was situated directly under the Pearl-st House, and was totally consumed in that great fire of August 23d.

New York, Aug 23 1853.

Messrs Wm McFarland & Co

Gents—It affords us pleasure to inform you that the Fire and Burglar Proof Safe we purchased of you, preserved our books and papers, at the disastrous fire of the Pearl-st House, last evening, in the most perfect manner. Although it was covered throughout the fire with burning Rosin, and other Oils, and directly under a broken gas pipe, in the most intense heat it remained true to its name, and its contents when taken out were not even scorched, and hardly have the smell of fire. To any one who is in want of a superior Safe, a perfect safeguard against fire, we cheerfully recommend your manufacture, having had a personal experience of their excellence. Yours truly,

B. F. POND & HITCHCOCK.

Our Depot, where an assortment of all kinds and sizes is constantly on hand, is at

33 Maiden Lane,

(TWO DOORS FROM NASSAU STREET,)

HOT CORN.
Opinions of the Religious Press

HENRY WARD BEECHER, in the New York Independent says—"Let it speed—May its numbers be as great as the leaves in summer. May thousands sit down under its shadow with delight, and rise up refreshed and made kinder and better men. And may Solon Robinson live to write a hundred books more each one better than the other."

The N. Y. Evangelist, a leading Presbyterian paper, says of these stories—"They evince a dramatic skill worthy of Dickens and powerfully appeal in behalf of the poor, vicious and down-trodden on grounds which guard Christian morality and feeling cannot but approve of. Any thing more touching than The Little Hot Corn Girl, or more thrilling in most of these transcripts from the terrible realities of life, we have seldom encountered."

From the Methodist Protestant, Baltimore, Md. "No man can read it without a spark of philanthropy in his bosom without feeling a strong desire to do something for the poor and wretched, to look with more compassionate glance upon the outcasts from society, and especially to seek to remove from the atmosphere of vice those helpless and innocent children who are born in sin and nourished in iniquity."

From the Religious Recorder Syracuse, N Y.—"Let the volume be read."

From the Religious Herald Hartford Conn.—"A great and good work will the circulation of this book effect."

For sale by DAVID BUGBEE,

feb7 No 6 Kenduskeag Bridge

BOSTON TYPE FOUNDRY. John K. Rogers & Co.

The undersigned having purchased of the "Boston Type and Stereotype Foundry" Corporation, the Type Foundry carried on so many years by that Company, propose to continue under the above style, the manufacture and sale of all descriptions of Printing Materials, giving special attention to the manufacture of Types in quality of metal and accuracy of body. Newspapers fitted out at short notice with Scotch-cut letter, of which they have a new series of faces. JOB TYPE—a general assortment, of the newest patterns, from all the Foundries, always on hand.—PRINTING PRESSES, from the manufactories of Hoe & Co., Adams & Co., and S. P. Ruggles, furnished on favorable terms. INKS—Prout's celebrated Black and Colored Inks, Varnish and Gold Size, kept constantly for sale.

CITY OF BANGOR.

AN ORDINANCE for the reorganization of the Fire Department.

Sec. 1. Be it ordained by the Mayor, Aldermen and Common Council of the City of Bangor, in City Council assembled, That the Fire Department shall consist of a Chief Engineer, and of not less than three Assistant Engineers; and of three companies, each of which is to consist of forty men, and of such additional companies, as shall hereafter be established by the Mayor, and Aldermen.

Sec. 2. Be it further ordained, That the Mayor and Aldermen shall from time to time form such additional Engine Companies as the wants of the City may require, but no Company is to exceed forty men in number.

Sec. 3. Be it further ordained, That no person under the age of twenty one years, shall be admitted into any company belonging to the Fire Department.

Sec. 4. Be it further ordained, That the Chief Engineer shall be elected annually by ballot in the month of March by the Council in convention and at such other times as vacancies may occur.

Sec. 5. Be it further ordained, That the Chief Engineer shall have the power to appoint as many Assistant Engineers, and designate their rank, subject to the approval of the Mayor and Aldermen, as there are Engine Companies.

Sec. 6. Be it further ordained, That the Engineers shall have, and exercise all the powers, and be subject to all the duties of Fire Wards.

Sec. 7. Be it further ordained, That the Chief Engineer shall appoint the Firemen, and shall have the power to discharge the same; but if any fireman is aggrieved at his decision, he may appeal to the Board of Assistant Engineers, who shall have power to reinstate him.

Sec. 8. Be it further ordained, That each Engine company shall choose a Foreman, two Assistant Foremen, and a Clerk, all of whom shall be confirmed by the Chief Engineer. Each Company shall cause a roll of its members to be made and kept, and called after each fire, false alarm, and at each meeting of said Company, and note on such roll who are absent.

Sec. 9. Be it further ordained, That each member of any company, who shall be absent from any Fire, False Alarm, or Meeting of said Company unless for a satisfactory reason given to said Company, shall be fined as follows:—absence from Fire, one dollar; absence from False Alarm when the roll is called, twenty-five cents and absence from each meeting of said Company, twenty-five cents. The Clerk of each Company shall report quarterly to the Chief Engineer all the absences of each member belonging to his Company and what amount is due from each member for fines.

Sec. 10. Be it further ordained, That the Chief Engineer shall be paid annually, the sum of three hundred dollars, each Assistant Engineer, the sum of fifty dollars; and each Fireman the sum of twenty-five dollars, on the first Monday of January of each year. But any fireman who shall serve for a less time than one year shall be entitled only to such compensation as the Chief Engineer shall determine. The amount due from each member for fines shall be deducted from the amount due for his services. And the sums thus deducted shall be kept by the City Treasurer in a separate fund to be called "Firemen's Relief Fund," to be used for the benefit of those members who may be injured at a fire, and when needed, for that purpose, may be drawn from the Treasury by the Mayor, and approved by the Chief Engineer's direction.

Sec. 11. Be it further ordained, That on the first Monday of May annually, at two of the clock in the afternoon, the Chief Engineer may order out all the Companies of the department with their respective Engines and other apparatus to exercise their members; and no company shall appear with more than forty members.

Sec. 12. Be it further ordained, That it shall be the duty of the Engineers, whenever any fire shall break out in the City, to repair forthwith to or near the place where the fire may be, to cause the Engines and other apparatus to be arranged and worked in such manner as most effectually to extinguish the fire, to require and compel the assistance of all persons in extinguishing the fire, removing furniture, goods, or merchandise, from any building on fire, or in danger thereof and to appoint guards to secure the same, and in pulling down or demolishing any house or building, or suppressing tumults and disorder. And it shall be their duty to cause order to be preserved throughout the Department in going to, working at, and returning from fires; and at all times when company are attached to the department or on duty. And whenever any fire shall occur in either of the adjoining towns, it shall be the duty of so many of said Engineers to repair to such fire as shall have been designated for that purpose by said Board of Engineers.

Sec. 13. Be it further ordained, That in case of the absence of the Chief Engineer at any fire, the Engineer next in rank who may be present, shall possess his powers and perform his duties.

Sec. 14. Be it further ordained, That all persons who may be present at any fire shall obey the direction of any Engineer, and render their service in extinguishing the fire and protecting property exposed thereto, in such manner as they may be required to do by any Engineer, and every person who shall refuse, or neglect so to do or request said Engineer, shall forfeit and pay to the city the sum of Ten Dollars to be recovered in an action of debt in the name of the City Treasurer to the use of said City. And it shall be the duty of the Engineers to report to the Mayor and Aldermen all such cases of refusal.

Sec. 15. Be it further ordained, That the Chief Engineer shall have the sole and entire control and command over all engineers and other persons attached to the Fire Department; shall direct all proper measures for the extinguishment of fires, and protection of property, preservation of order, and observance of the fire laws, ordinances and regulations. It shall be his duty to examine the condition of the Engines, and other Fire apparatus, Engine Houses, and other buildings used by the Fire Department, and all the reservoirs weekly, to keep the reservoirs free from snow and ice during the winter, to superintend the building and repairing of all machines and buildings used in the Fire Department and all the city reservoirs. It shall be his duty to see that the Engines and apparatus are always kept clean and in order for immediate use; that, on the return from fires, they are well washed, cleaned, and oiled and securely housed. He shall keep fair and exact rolls of the respective Engine Companies, specifying the time of admission and discharge of each member, and report the same to the Mayor and Aldermen on the first Monday of January of each year, with the amount of fines due from each member. He shall also report to the City Clerk once in each year all the accidents by fire which may have happened within the city, and the cause thereof, so far as it can be ascertained, and the number of buildings and the value of the property destroyed or injured, and the names of the owners, if known.

Sec. 16. Be it further ordained—That the City Council, by a concurrent vote, may remove either of said Engineers.

Sec. 17. Be it further ordained—That the Mayor and Aldermen may from time to time, form as many Hose, Hook and Ladder, Bucket and Fire Companies as they deem it expedient, to consist of such number of members as they shall determine.

Sec. 18. Be it further ordained—That the Engineers and members of the several Companies shall wear such caps and badges as the Chief Engineer shall direct, and the Mayor and Aldermen furnish. They shall be furnished at the expense of the city, and remain the property of the city. No other person shall be permitted to wear similar caps and badges except under such restrictions and regulations as the Chief Engineer may direct.

Sec. 19. Be it further ordained, That it shall be the duty of the City Marshal and Constables of the city, on an alarm of fire, to repair forthwith to the place where the fire may be, with their staves or such other badges of office as the Mayor and Aldermen shall direct, and use their best exertions, under the direction of the commanding Engineer, to preserve the public peace, and to prevent theft and the appropriation of property, and assist in the removal of all suspected persons, for which service the Constables shall receive such compensation as the Mayor and Aldermen may allow.

Sec. 20. Be it further ordained, That if any chimney, stove-pipe or flue, within the city shall take, or is set on fire, the occupant of the house, to which such chimney, stove-pipe or flue appertains, or the person so setting the same on fire, shall forfeit and pay the sum of two dollars. Provided, however, it may be lawful for any person to set fire to his chimney, stove-pipe or flue, in the forenoon of any day, when the contiguous buildings are wet with rain, or covered with snow. And it shall be the duty of the Engineers to report to the Mayor and Aldermen the names of all persons liable to the penalty provided by this section.

Sec. 21. Be it further ordained, That the power of making and establishing rules and regulations for the transportation and safe keeping of gunpowder, within the city of Bangor, and granting licenses for the keeping and sale thereof, in the city, pursuant to the provisions of law, shall be exercised and performed by the Chief and other Engineers; and the power and duty of seizing any gunpowder kept or being within said city, or the harbor thereof, contrary to the provisions of law, shall be exercised and performed by said Engineers or any one of them. And, in case the seizure shall be made by any Engineer, other than the Chief, he shall forthwith report the same to the Chief Engineer, who shall cause said gunpowder to be libelled and prosecuted in the manner prescribed by law. And all the other powers and duties enjoined and granted by the laws of the State, in relation to the safe keeping and transportation of gunpowder, shall be exercised and performed by the said Chief and other Engineers.

Sec. 22. Be it further ordained, That whenever it shall be determined by two or more Engineers, or by the majority of any greater number of Engineers present at any fire, to pull down or demolish any building which may be on fire, or which it may be necessary to remove to prevent the spread of the fire, the same may be done by their joint order.

Sec. 23. Be it further ordained—That it shall be the duty of the Chief and other Engineers to inquire and examine into all shops and other places, where shavings or other combustible materials may be collected and deposited, and at all times to be vigilant in causing the removal of the same, whenever, in the opinion of any two of them, the same may endanger the city; and to direct the owner or occupant of such shop or other place, to remove the same, or cause the same to be removed, at his expense, under the direction of the Engineers.

Sec. 24. Be it further ordained, That when any chimney, stove, or stove-pipe within said city shall be defective or out of repair, or so constructed or placed that any building or other property shall be in danger of fire therefrom, it shall be the duty of the Chief Engineer, or any two Engineers of the Fire Department, to give notice in writing, to the owner or possessor of said chimney, stove, or stove-pipe, to remove or repair the same. And if such owner or possessor shall, for the space of forty-eight hours after such notice, unnecessarily neglect to remove or effectually repair such chimney, stove or stove-pipe, he shall forfeit a sum not less than two dollars nor more than twenty dollars; and he shall be liable to a similar forfeiture for every week he shall so unnecessarily neglect to remove or effectually repair the same, after the expiration of the said forty-eight hours.

Sec. 25. Be it further ordained,—That if said owner or possessor shall unnecessarily neglect to remove or effectually repair such chimney, stove, or stove-pipe, within forty-eight hours after notice as aforesaid, it shall be lawful for the Chief Engineer to remove or repair the said chimney, stove, or stove-pipe, the expenses of which may be recovered by an action of the case by the City Treasurer against the said owner or possessor.

Sec. 26. Be it further ordained,—That all moneys received for fines, forfeitures and penalties arising under this ordinance, and the laws of the State regulating the storage and transportation of gun powder, shall be paid to the City Treasurer, to be applied in such way as is or may be provided by law.

Sec. 27. Be it further ordained,—That whenever the members of the several companies shall assemble at the houses entrusted to their care, either on city or company business, order and regularity shall be preserved. And it shall be the duty of the officers and members to refrain from unnecessarily assembling at said houses. And the utmost care and economy shall be observed in the use of fuel, lights and other property furnished by the city.

Sec. 28. Be it further ordained,—That any member of the City Council may enter within the lines, at any fire, wearing a suitable badge to be provided by the Mayor and Aldermen.

Sec. 29. Be it further ordained, That no Fire Engine, or apparatus belonging to the city, shall be used in any trial or contest for superiority with any other Engine, or be taken out of the city, except to render assistance at fires in neighboring towns, unless by special order of the City Council.

Sec. 30. Be it further ordained, That "an ordinance establishing a Fire Department for preventing and extinguishing Fires," passed Oct. 16 1838 and "An ordinance additional" to the same passed Feb. 3, 1851 be and the same and are hereby repealed.

[Passed Feb. 20, 1854.

SEYMOUR'S GALVANIC ABDOMINAL SUPPORTER.

THIS apparatus possesses all the mechanical advantages of the Abdominal Supporters now in use, and also some valuable improvements beside the galvanic attachment. It has been tested, approved of, and universally adopted in the practice of all the leading Physicians in New York, Boston, and all other places where introduced, in the treatment of all Nervous diseases which exhibit themselves under so many different heads, and particularly in the cure of Uterine difficulties. The beneficial results which have uniformly attended the use of this instrument are a sufficient guaranty of its utility and general application. The advantages of this over other Supporters are, it cures by its Galvanic action, presents a smooth surface that does not retain heat or impurities which pass from the system, and can be kept pure and healthful.

The attention of the medical profession is respectfully solicited to an examination and test of the instrument. The above Supporters are for sale by GEO. W. EMERSON, Druggist, No. 4 Smith's Block, sole agent for Bangor and vicinity.

DR. HAMPTON'S VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System.

This article, which has made so many wonderful cures, was discovered by Dr. Jacob Hampton, of Louisville, Ky., now at fine health in his 70th year of his age, and is acknowledged by those who have used it to be the best family medicine in use, and is warranted free from all mineral substances. By its mild action on the Stomach, Liver and Kidneys, it will cure the diseases of those organs, with all Chronic Complaints, as Dyspepsia, Cough, Asthma, Bronchial and Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Bowel Complaints, Worms, and Nervous Debility, with all diseases arising from impure Blood. As a Female Medicine it has no equal. It will change the complexion from a pallid to a blooming one.

WILBOR'S COMPOUND OF PURE COD LIVER OIL AND LIME.

THIS valuable medicine, which has received the sanction of the medical faculty, by whom it is regularly prescribed, and which has been tested successfully by thousands of invalids, is one of the most remarkable preparations ever offered to the public for the cure of

CONSUMPTION, SCROFULA, COUGHS, COLDS, ASTHMA, BRONCHITIS, SPITTING OF BLOOD, AND ALL COMPLAINTS OF THE LUNGS.

Pure Cod Liver Oil has long been acknowledged to be the most efficacious article for the cure of Consumption and kindred diseases yet discovered, while the chemical properties of the PHOSPHATE OF LIME are also well known in medicine as being peculiarly healing. In cases where ulceration has taken place on the lungs, this article has been found, by the most careful tests, to supply the very ingredient necessary for the formation of cells, and the complete healing of this delicate part of the human system.

This preparation of the pure Cod Liver Oil and Lime robs the oil of its very nauseating taste, which renders it so repulsive, particularly to invalids.—The thorough incorporation of the Phosphate of Lime with the Oil has only been accomplished by the adoption of the most perfect rules of chemistry, and a medicine has thereby been produced which is of inestimable value in a climate like our own.

A long array of certificates might be given here to prove the efficacious character of this medicine, but it is not deemed necessary. The fact that from the very first introduction of the Cod Liver Oil and Lime before the public, it has been gradually accepted by the medical faculty, is sufficient proof of its unquestioned excellence.

Principal Examiners. WM. CHAUNCEY LANGDON,

Assistant Examiners.

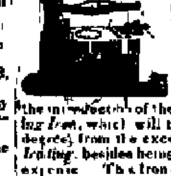

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues. WM. P. N. FITZGERALD.

Late Principal Examiner of Patents.

Boston, Dec 31, 1853 3awly16

House-keepers, look at this! Admirable Invention.

PATENT SELF HEATING SMOOTHING IRON!

MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of man by machinery and other modern implements, but females have been nearly neglected until the introduction of the Patent Self Heating Smoothing Iron, which will relieve them, in a very great degree, from the excessive and fatiguing labor of Ironing, besides being a great saving of time and expense. The iron combines economy, convenience, saving of labor, and despatch; one cent's worth of dry charcoal supplies fuel for a whole day's constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters' and Tailors' Irons are constructed upon the same principle, and possess equal superiority.

For sale, wholesale and retail, by the subscriber, who is the only Agent for Penobscot County.

ALBERT NOYES.

May 7

Notice of Foreclosure.

THE undersigned give notice of their claim, by a mortgage deed from Gardiner A. Smith, dated January 20th, 1852, and recorded in the Registry of Deeds for the County of Penobscot vol 221 page 258, of a certain lot of land, with the buildings thereon, situate in Passadumkeag, being lot numbered one, on the south side of Pleasant street, so called, and the same formerly occupied by said Smith. The conditions of said mortgage have been broken, by reason whereof we claim to foreclose the same.

Whig and Courier.

There's work enough to do

The blackbird early leaves its nest
 To meet the smiling morn,
And gather fragments for its nest
 From upland, wood and lawn,
The busy bee that wings its way
 'Mid sweets of varied hue,
At every flower would seem to say—
 "There's work enough to do."

The cowslip and the spreading vine,
 The daisy in the grass,
The snow drop and the eglantine,
 Preach sermons as we pass.
The ant within its cavern deep,
 Would bid us labor too,
And writes upon the tiny heap—
 "There's work enough to do."

To have a heart for those who weep,
 The scottish drunkard win;
To rescue all the children, deep
 In ignorance and sin.
To help the poor and hungery feed,
 To give him coat and shoe,
To see that all can write and read,
 "Is work enough to do."

The time is short—the world is wide,
 And much has to be done;
This wondrous earth, and all its pride,
 Will vanish with the sun!
The moments fly on lightning's wings,
 And life's uncertain too;
We've none to waste on foolish thing—
 There's work enough to do!

The planets, at their Maker's will,
 Move onward in the car,
For Nature's wheel is never still—
 Progressive as the stars!
The leaves that flutter in the air,
 And summer's breezes woo,
One solemn truth to man declare—
 "There's work enough to do."

Who then can sleep when all around
 Is active, fresh and free?
Shall Man—creation's lord—be found
 Less busy than the bee?
Our courts and allies are the field,
 If men would search them through,
That best the sweets of labor yield;
 And "work enough to do."

Slaves in Russia.

Of the fifty-three and half millions of people which Russia contained in 1842, not less than forty-two millions were slaves; and of these, fifteen millions were slaves of the Crown, or the Emperor! The Russian slaves have no legal rights; in that respect they are no better than the negroes of the States. The Russian people are not only slaves to their nobles, they are also slaves to the soil. The land of Russia is valueless of itself; its value consists in the human property belonging to it, from which the nobles derive their chief revenue. Practically, the private serf of Russia—and there are above forty millions of such—is, life and limb, at the disposal of his owner, as completely as slaves have ever been in any country. He can be sold or hired out as a beast of burden.

The law, it is true, now wills that a certain portion of the land must be sold with him; but land in Russia is, as we have said, of mere nominal value. The master may remove one or all of his slaves for life from one estate to another, though thousands of miles apart. In purchasing a slave, he has only to go through the formality of receiving from the former owner a few acres of land with him, of which he soon forgets the possession, and from which he may remove the slave, separating him forever from his wife and children, and dooming him to perpetual banishment from home. The Russian slave, male or female, cannot marry without the permission of the owner; and, as in the case of negroes in the States, there are no purposes, even the most infamous, to which the female slave is not always liable to be devoted, and frequently applied.

The master may at any time send his male slave to Siberia, or for a soldier—and some he must consequently chose for this service. The owner may flog his slave to death, but the law only permits him to be fined. The law forbids any court to receive the evidence of a slave against his master. By a Royal ukase issued by the monster Catherine, and since confirmed by Nicholas, if a serf makes any complaint to his superiors against his lord, "he shall be amenable to the punishment which the Laws award"—that is, to the punishment of death!—But there is no law in Russia, except the despotic will of the head slave owner. Puschkin, the Russian writer, emphatically observes, "There is no law in Russia, the law is nailed to a stake, and that stake wears a crown."

The Self-importance of Crime.

The juveniles are, when in prison, of all its inmates the most troublesome; they strut from cell to chapel, and from chapel to cell, with an air of impudence and self-importance that is seldom seen in older criminals. Their manner and their questions in the dock declare how their present mode of discipline operates on their minds. The expression of their conduct, if not their lips, is of this kind: "There's the policeman; he must mind and not ask me questions about my offence. There's the turnkey; he is my servant to bring me my breakfast, dinner and supper; and if he don't bring me enough I'll send for the scales to weigh my bread and meat. There's the schoolmaster; he must give me my instructions, and supply me with books. There's the Doctor; he must come and ask me how I am twice a week, and every day if I want him. There's the chaplain; he must visit me frequently. And the governor must not neglect me; and the magistrates, they must come twice a week and ask me if I have any complaint to make. The officers are obliged to mind what they are about." This swells the frog into an ox.—[Prize essays on Juvenile delinquency.

Demise of a Mummy. An honest footman, anxious to explore the wonders of the British Museum, obtained a special holiday a short time since. Accordingly, taking with him a couple of lady friends, he presented himself at the door for admittance.

"No admission to-day, sir," said the keeper.

"No admission to-day, but I must come in, I've a holiday on purpose!"

"No matter, this is a close day, and the Museum is shut."

"What," said John, "ain't this public property?"

"Yes, but one of the mummies died a few days ago, and we're going to bury him."

"Oh, in that case we won't intrude," said John; and so he retired.

The Legislature of Alabama has passed a bill emancipating John Bell, the body servant of the late Wm. R. King, and authorizing him to remain in the State.

S. A. Hitchcock, of Brimfield, has lately made a donation of $10,000 to establish a free high school in that town, on condition that the inhabitants raise funds for the erection of a building of the same. A meeting is to be held to consider the proposition next week.

Whig and Courier.
John S. Sayward, Editor,
MONDAY, MARCH 13, 1854
☞ SEE FIRST PAGE. ☜

William Pitt Fessenden in the Senate.

The new member in the United States Senate from Maine, might, under the circumstances of so recently taking his seat in the Senate, have been excused from doing more than recording his vote against the Nebraska bill, but Mr Fessenden is not a man to flinch from his duty, his whole duty, on such an occasion as that of passing a bill to open the floodgates of slavery upon a large and beautiful territory solemnly dedicated to freedom. We find him, therefore almost upon his first entrance into the Senate precipitated into the necessity of a vote upon the Nebraska bill, and like a true and a fearless representative of freemen, is uttering a bold and noble protest against the wrong, and stands up like a hero, electrified by intelligence and freedom, and unfolds the arguments in the case, takes up the gauntlet, and hurls back into the teeth of the utterers of taunts and threats intended to intimidate, but which only served to quicken and invigorate him.

It must be highly satisfactory to those men in the Legislature who united upon Mr Fessenden as their candidate for the Senate and gratifying to the people of the State that Maine had two votes in the Senate against the Nebraska iniquity, and a man there up to the occasion and adapted to the exigencies of the case.

The following extracts from various correspondents at Washington will show in what light Mr Fessenden's first effort as the Senate is regarded.

The correspondent of the New York Courier and Enquirer, after alluding to the speech of Mr Toucey, of Connecticut, says

"Mr Fessenden followed this champion of Connecticut democracy, and depicted with eloquence and force the State of public opinion at the North on this question, and pointed out the probable consequences of the outrage."

The correspondent of the New York Times says.

"Mr Fessenden's maiden speech in the Senate on Friday night, against this bill, was bold, forcible and manly, fully sustaining his high reputation. Few men who heard him as the editor of the Union did not, generally concede this, the disparaging and discourteous remarks of the administration organ notwithstanding."

A correspondent of the New York Tribune says

As I entered the Senate chamber about ten o'clock last night, I found the new Senator from Maine, Mr Fessenden, making a most gallant onslaught upon the Nebraska conspirators. It was a speech that they will remember—manly, caustic, and defiant. It was glorious to see the little band of faithful men in the Senate, made larger and stronger by such an addition, and deeply sensible, I know, are they of the strength and encouragement thus brought to their ranks. All around him were the bullying braggart majority, flushed with anticipated victory, and some of them I am mortified to say, beastly drunk. He nevertheless with unwonted courage held them all at bay. Twice Senator Butler of South Carolina, advanced toward the Senator from Maine with clenched fist and flushed face, as if to commit a personal assault, but this only brought forth renewed and redoubled blows of eloquence and logic from the new Senator. He told the South what they should have been told in 1850, that if they desire to leave the Union they need not delay their departure an hour on account of the North. They have frightened us too many times with that bugaboo, to succeed this time.

Another correspondent of the Tribune says

But perhaps the most significant event of the night was the maiden speech of the new Senator from Maine, William Pitt Fessenden. This debut was eminently successful. He commanded strict attention from all sides, and enforced the conviction on all the Senators present that not only had a new member come among them, but that a new man had made his appearance in the body. Mr Fessenden's speech was bold, fluent, clear, and hard as flint. He addressed the Southern gentlemen as if they were his acquaintances, and told them that, if agitation was renewed with increased vigor in consequence of the passage of the Nebraska bill, he wished them to understand now that they would have nobody to thank for it but themselves. And that for his part, if the bill *did* pass, they might put him down as *just beginning* to agitate. As for any threats of dissolution of the Union, on account of agitation, he desired them to consider further that they disturbed him not at all. He had heard them before and he knew how empty all such threats were. In reply, to Judge Butler, who warmly declared that the South were not pretending to favor disunion in order to quiet agitation, but were really in earnest, "Very well," said Mr Fessenden, "I beg you not to delay any business of that sort on my account." Several other hits of equal point fell from him in rapid succession. One bystander remarked that his guns seemed to be all double-shotted, and another observed that it was the best speech he had heard in the Senate on the subject, for it was one straight to the point, and one that it required no effort to understand.

The friends of freedom may congratulate themselves upon the acquisition to the Senate at this juncture, of such a man as Mr Fessenden.

☞ We have received from the publisher, Samuel T. Taylor, New York, a copy of the March number of The Dress Makers and Milliners' Guide and Report of the Paris, London and American Fashions. This number has folded into it two full size patterns for fashionable mantles. It has also, five plates of fashions and patterns and altogether, it is a publication which every Dress Maker should have, and which will be found highly useful in the family circle.

Patch & Lewis have this work for sale.

The Horticulturist and Journal of Rural Art and Rural Taste. March 1854. James Vick, Jr., Rochester, N Y

In our opinion, this is not only the most elegant, but decidedly the best number of this magazine which has yet appeared, and this is bestowing high praise. Its embellishments are exceedingly beautiful, and its matter is timely suggestive and practical and upon important subjects, such as transplanting trees, what to plant and how to plant; the Kitchen garden; Japan Lilies; notices of fruit, &c.

Those engaged in any department of rural art will find this a most acceptable companion shedding a flood of light upon matters of interest to them.

Messrs. Patch & Lewis are agents for this periodical.

☞ The Hudson is open to West Point, and small boats are running in Haverstraw.

Horticulture—Relation between the Soil and the Plant—Cultivation of the Soil—Pleasures of Country Life.

It is well known that Professor Mapes has contributed very much to advance the great art of the cultivation of the soil, by his chemical and other practical experiments. His most noted and accomplished associate in the laboratory and the field, in the muck bed and in the garden, in the lecture room and at the writing table is Mr E G Waring, Jr.; and this gentleman, by his able labors before the Board of Agriculture of Maine, and by the preparation of a text book on agricultural chemistry and the relation between the soil and the plant, has become favorably known in Maine, as a man of science, of culture, enthusiastically solicitous for advancing the great art of the cultivation of the soil, by making the science and practice fully and clearly understood and appreciated by the people at large.

We are happy to announce that Mr Waring is to deliver a course of lectures in this city of a highly useful, as well as of a pleasing character, thus combining pleasure with profit. In these lectures he will unfold the relation between the soil and the plant—the cultivation of the soil—the food of plants, and the pleasures of country life amidst its fruits and flowers when wisely pursued.

The interest which our people have taken in the making of gardens and the cultivation of fruits and flowers, we think that nothing would afford them greater satisfaction than to listen to these able and brilliant lectures of Mr. Waring. He gives just such information as is needed and in a form to be remembered and practiced upon. He is so thoroughly acquainted with the whole subject that he will answer questions which may be submitted at the close of each lecture, and thus give a large amount of valuable information to cultivators.

Farmers in the neighboring towns could not do a better thing for their sons and themselves than send a delegate from each family to attend these lectures, and by their taking notes they will acquire a fund of valuable knowledge and an enthusiasm in their art which will lead them successfully onward in a line of improvement.

Something of this kind, has been long needed, and now that an opportunity for attending such a course of lectures presents itself we trust it will be fully improved.

Mr Waring will deliver three lectures, the first on Friday evening the 17th of March, the second on Saturday evening the 18th, and the third on Monday evening the 20th. The lectures will be delivered at the City Hall, and the price for the course will be fifty cents.

New Hampshire Election.

The annual election of a Governor, Legislature, Railroad Commissioner, and town officers takes place to-morrow, in the "Old Granite State." For several years past the elections in the State have been quite uninteresting to outsiders, for the reason that they have been so one-sided—thoroughly Locofocoish. Franklin Pierce and a squad of office holders called the "Concord Clique," have had their own way there since the election of Hon John P Hale to the United States Senate in 1846; but there is a hope that the excitement caused by the Nebraska bill in Congress will this year bring about a different result. That all-absorbing measure has had the effect seemingly to paralyze the leaders of the dominant party and to infuse new life and new energy into the friends of freedom and right government. Two United States Senators are to be chosen by the Legislature to be elected, at its next June session, in place of Messrs Norris and Williams. Last year the Locofoco majority in the House of Representatives was seventy five, and now the New Hampshire Patriot—Gen. Pierce's organ—expresses the opinion that their opponents will not reduce that majority more than twenty five. We are inclined to a contrary belief, but as the time is so short between this and a day when we can speak with certainty we will not speculate. It would be a glorious thing to record the prospects of the election of Hon John P. Hale and a good Whig to go with him to the United States Senate.

The names of the Candidates for Governor are—James Bell, Whig; Nathaniel B. Baker, Old-line Democrat; and Jared Perkins, Free-soil.

☞ John P Jewett & Co., enterprising publishers of Boston, have just issued a thick, handsome pamphlet, entitled, "Russia and the Eastern Question, by Richard Cobden, Esq., M. P., with an Introduction by an American Citizen." This work posts the reader up, on the important subject which is now involving Europe in a destructive war, and will, doubtless be sought for by all intelligent readers who wish to have an eye upon the origin of the war, while they are watching its progress.

☞ From Melbourne, Australia dates are to Dec 1. The yield of gold was not increasing and emigration was scarcely diminished. Laborers were in demand. A carpenter earns from £7 to £9 a week, a mason from 9 to 10 10s, a wood-sawyer 4 10s, £5 a week, and rations, a bullock-driver 3 10s, to 3 10s a week, and rations, and a laborer on the roads 2 10s a week and others in proportion. Order has been re-established at the diggings.

☞ Miss Lucy Stone's lectures, here give very great satisfaction to our people. Her doctrines are in accordance with those of the Quakers, although she would not probably carry them out to the extent that they do. Miss Stone is a graceful speaker, quiet, clear and keen.

☞ The barn of John Sturgis, Vassalboro, was consumed by fire on Tuesday evening, Feb 28th, together with twenty-five tons of hay and several tools.

☞ Mr. Levi Swain, of Meredith, N. H., informs the editor of the Democrat that he has worked 47 years at the carpenter business, and has never cut himself with an edged tool and never has been sick a day.

☞ We learn that Elder John Howell will commence a course of lectures on the subject of the Second Advent, at Market Hall, in this city on Tuesday (to-morrow) evening.

☞ H. W. Fuller, Esq., will deliver a Poem before the Mechanics' Association, on Friday evening next.

Medical Association.

The Physicians of this city and county, on Wednesday last, organized a County Medical Association, and elected the following officers:

Dr Hosea Rich, Bangor, President.
" James C. Bradbury, Oldtown, 1st Vice President.
" John Benson, Newport, 2d Vice President.
" Wm. H. Brown, Bangor, Rec. Secretary.
" James C. Weston, Bangor, Cor Secretary.
" Charles Alexander, Orono, Treasurer

Drs J P Dickinson, H. N Page, W H Allen, F. M. Fisher, S Laughton, Standing Committee.

A General Explosion Predicted.

We copy the following article from the N Y Tribune. It may be correct, and it may not. Time will tell.

"The following information, which, if true, is of the highest importance, and a portion only of which has appeared in the European journals, and that in a partial and disguised form, we have received from a most trustworthy source at London.

I. On the 3d of February the following declaration on the part of the Prussian Cabinet was despatched to Paris and London:

"1. The explanation of Count Orloff leaving no doubt whatever as to the uselessness of any further attempt at mediation with the St. Petersburgh Cabinet, Prussia hereby withdraws her mediation, the opportunity for which can no longer be said to exist.

2. Count Orloff's proposals of a *formal* and binding treaty of neutrality, have met with an absolute refusal communicated to him in a note, Prussia being decided upon observing even without the concurrence of Austria, the most strict neutrality on her part, which she is determined to enforce by *suitable armaments*, as soon as the proper moment shall have arrived.

3. Whether Prussia shall propose, in common with Austria, a general arming of the German Confederation, will depend on the conduct of the maritime powers toward Germany."

II. Louis Napoleon has sent a confidential agent (Mr Brenier) to Turin, with the following message for the King of Piedmont and Mr Cavour:—As a given time an insurrectionary movements are to break out in Parma, Piacenza, Guastalla, and Modena. Sardinia must then occupy those countries, from which the now reigning princes are to be expelled. Napoleon is to guarantee to the King the incorporation with Sardinia, of the three former principalities, and perhaps of Modena, also, in compensation for which territories the County of Savoy is to be ceded to France. This arrangement England may be said to have as good as agreed to although reluctantly and with very bad grace. Mr Brenier then proceeded further on his tour through Italy till he reached Naples, where his arrival evoked the most painful sensation. His mission is that of preparing an Italian insurrection, as Napoleon is seriously convinced that he is the man not only to set Italy on fire, but also to draw the exact line which the flame shall be forbidden to cross. He proposes to concentrate the following armies

1—100,000 men on the frontier of Savoy
2—60,000 men at Metz
3—80,000 men at Strasburg

III. Prussia does not object to the assemblage of a French army of 100,000 men on the frontier of Savoy, but she considers the concentration of an army at Metz, and of another at Strasburg, to be a direct menace against herself. She already fancies Baden, Hesse, Wurtemberg, etc., in full insurrection, and some 100,000 peasants marching from the south of Germany on her own frontiers. She has, therefore, protested against these two measures, and, it is this eventuality which is alluded to in section 2 of the Prussian declaration. At all events, Prussia will put her army on a war footing by, and perhaps before, the end of March. She intends calling out a force of 200,000 to 300,000 men, according to circumstances. But if Napoleon insists on concentrating the two armies at Metz and Strasburg, the Prussian Government has already resolved to augment its force to 500,000 men.

In the Berlin Cabinet where the King, with the great majority of his Ministers, had chosen to side with Russia, and Manteuffel alone backed by the Prince of Prussia, carried the declaration of neutrality, (Manteuffel originally proposed a formal alliance with England,) fear and confusion are said to reign supreme.

There exists already a formal resolution of the Cabinet (Cabinets-Beschluss) according to which, under certain circumstances, all the most notorious Democrats of the monarchy, and, above all, of Rhenish Prussia, are to be arrested on the same night, and to be transported to the eastern fortresses, in order to prevent them from forwarding the subversive plans of Napoleon (the Umsturzplane Napoleon's) or from getting up popular movements generally. This measure, it is proposed, shall be executed instantly in the case of Italian disorders breaking out, or if Napoleon concentrates the two armies at Mentz and Strasburg. The resolution, we are assured, has been taken with due ... ly, although all the eventualities are not provided for, under which the Cabinet might think fit to put it in execution."

☞ A correspondent of the Boston Journal writing from England thus speaks regarding Kossuth:

"A friend of mine, who dined with Kossuth, Pulszky and Madame Pulszky on Saturday last, informed me that the great Hungarian chief is looking well, and is in the highest spirits. To an invitation to dinner he replied that the only reason which prevented his acceptance of it was, that he did not know that he would be in England as he hourly expected orders to be off. And he said upon it, few months will have elapsed, until we shall hear of the commencement of another Hungarian struggle, more glorious than the first because it will be more successful, and depend upon it, too, that in this struggle Kossuth will take the foremost position, or, to use the words which he addressed to me in an interview with him twelve months ago, 'When the struggle comes I will not be in London—I will be in my beloved Hungary, at the head of my troops—their suffering, my suffering—their glory, mine.'" May success attend him.

The Case Stated.—The Boston Courier, in announcing the votes in the Senate upon the Nebraska Bill, alludes to the measure in the following terse and truthful style:

Few words are necessary to describe this deed. It is a fraud and a falsehood; it is a breach of the national faith, solemnly pledged in the face of the world, and inscribed upon the public records. Excuse, palliation, apology, extenuation, or any decent cover for the iniquity there is none. Nobody asked for it, nobody had ever dreamed of the existence of a necessity or use for such a thing.

☞ We learn that a large importation of choice dwarf pear trees has arrived at New York, for some of our citizens engaged in the fruit tree trade.

☞ The sleighing here is excellent, with an average depth of about two feet of snow. The weather for a week or two has been moderate.

☞ Smelt fishing is quite popular now, the little silver fish being taken from the river and streams through holes cut in the ice.

☞ Hon Bernard C. Bailey has been re-elected Mayor of Bath, by an almost unanimous vote.

☞ Mr Springer, lectures on Astronomy are to be repeated in Orono on the evenings of Monday, Tuesday and Wednesday this week.

Washington, March 9.

Among the cadets at large appointed by the President, are Jonathan B. Cilley, son of Hon Jonathan Cilley, formerly member of Congress from Maine, and Frank C. Goodrich, son of C. B. Goodrich of Boston.

New York, March 9

Phineas T. Barnum was to-day elected President of the Crystal Palace Association, by a unanimous vote.

The Female Doctors.—The names of the four ladies who received the degree of M. D., at the New England Female Medical College, on Friday last, are —Sophrana Fletcher, Lowell; Lucy A. Harris, Waterville, Me.; Mary R. Jenks, Springfield; Martha N. Thurston, Lowell. It is stated that these ladies intend to locate in Boston.

Maine Legislature.

Thursday, March 9

IN THE SENATE.

Read once to-morrow assigned—Resolve in favor of David Seavy, bill to authorize the city of Bangor to collect the taxes assessed upon the polls and estates of said city for the year 1853, bill to increase the capital stock of Manufacturers and Traders Bank, Portland.

Resolve to amend the constitution in relation to the election of civil officers (by the adoption of the plurality system) was read a second time, and on motion of Mr Clarke, (who wished time to prepare and offer an amendment,) it was laid on the table.

IN THE HOUSE

Mr Stone of Kennebunkport presented the petition of C J Hudson et al for charter for Telegraph Company (from Portland to Calais.) Referred to Judiciary Committee.

Ordered, That the committee on the Judiciary be directed to enquire into the expediency of enacting a general law for the incorporation and government of Telegraph Companies.

Report of the committee on Banks and Banking, giving leave to withdraw on the following petitions was accepted—for bank at Parsonsfield—for North Bank, Rockland—of Kenduskeag Bank for increase of capital—of J Hubbard et als for bank at Hallowell

Petition presented and referred—of W C Hammett to extend time for building Howland bridge

Read and to-morrow assigned—bill to increase capital stock of Traders' Bank, Bangor, $50 000

Bill to incorporate the Market Bank, Bangor, was taken up, and Mr Hill of Bangor, made some extended remarks in favor of passing the bill, and showing its necessity. Passed to be engrossed, 68 to 16

Friday, March 10

IN THE SENATE

Mr Young, from the committee on manufactures, reported bill to increase the capital stock of the Dexter Manufacturing Company. Also, a bill to incorporate the North Vassalborough Manufacturing Company. Read, and to morrow assigned

Mr McCobb from the committee on banks and banking reported a bill to increase the capital stock of the Ellsworth Bank, ($25 000)—Also, bill to increase the capital stock of the Merchant's Bank, Bangor, (25,000) Read and to-morrow assigned.

Passed to be engrossed—Bill to increase the capital stock of the Manufacturers and Traders' Bank Portland bill to authorize the city of Bangor to collect taxes assessed on polls and estate for 1853.

Mr Prince from the committee on agriculture, reported a bill for the introduction of text books containing the rudiments of agriculture in common schools. Read and to-morrow assigned.

Bill to establish the county of Androscoggin was read a second time. On motion of Mr Prince a verbal amendment was adopted. The bill was then passed to be engrossed.

Mr Prince from the committee on agriculture, reported a bill to amend the 82d chapter of the revised statutes. Also, a bill to incorporate the Maine Pomological and Horticultural Society.

Ordered, That the committee on the reform school be directed to visit personally the reform school and investigate and report on the condition of the affairs of that institution at the present Legislature. Adjourned.

HOUSE

Friday, March 10

On motion of Mr Cushing of Frankfort, the committee on judiciary were directed to inquire into the expediency of further legislation to enable school districts to purchase localities for school buildings, when parties holding desired localities refuse to sell the same. Adj.

XXXIIId CONGRESS.

Washington, March 9

SENATE

In the Senate several remonstrances against the Nebraska bill were presented

Mr Walker reported back the Homestead bill with the unanimous recommendation of the Committee in its favor. It was made the special order for Monday

The question was taken on the passage of the bill providing a retired list for disabled army officers. The vote stood, ayes 21, nays 3. No quorum present

Adjourned.

HOUSE.

In the House, this morning, Mr Dean of New York, made an ineffectual attempt to introduce a resolution instructing the Committee on Foreign Affairs to inquire into the recent outrage committed in Havana on the person and property of American citizens. The resolution has reference, doubtless, to the Black Warrior affair

Remonstrances against the Nebraska bill were presented

The House subsequently went into Committee on the Minnesota Land bill

Mr Kerr offered an amendment to the Minnesota land bill, providing that the money arising from the sales of reserved sections shall be paid to those States which have received no grants.

Mr Olds opposed the amendment, and offered one providing that the distribution shall be among the inhabitants of the States.

Mr Matteson moved the modification of Mr Kerr's amendment so as to read "The money arising from the sale of the alternate sections shall be paid to all the States in proportion to their federal representation in Congress." A long discussion ensued.

Washington March 10.

SENATE

The bills making Dubuque and Keokuk in Iowa ports of delivery, were passed.

After an Executive session the Senate adjourned.

HOUSE

In the House, this morning, a resolution was passed unanimously, requesting the President to communicate any information he may have received touching the seizure of the Black Warrior at Havana.

Mr Dean of New York gave notice of a bill to repeal our neutrality laws so far as they are applicable to Spain.

A resolution was passed authorizing the selection of a site for a Light House at the entrance of Boston Harbor.

The amendment to the Minnesota land bill, providing that the proceeds of the reserved sections shall be paid to the States which have received no grants was adopted by a majority of one vote.

Mr Dean subsequently moved to lay the bill on the table, and called for the yeas and nays.

An excited and disorderly discussion ensued, when the bill was finally tabled by 100 to 26

The House went into committee on private bills. A very exciting debate arose on one of these, viz., between Mr Sollers of Maryland, and Mr Lane of Indiana, growing out of a remark made by the latter touching a slave institution.

When the committee rose, Mr Stanton offered a resolution instructing the committee on the judiciary while inquiring into the Gardiner frauds, to extend their investigations to any awards made under the Mexican treaty which may be supposed to have been fraudulently obtained. Mr S was informed that testimony was in existence impeaching other important awards under that treaty. Resolution passed.

Adjourned to Monday.

Washington, March 10.

The Coroner's Jury who have been holding an inquest on the body of the late Doctor Gardiner, have returned a verdict to the effect that he committed suicide by taking strychnine.

☞ Saturday evening a wayfarer dropped upon the sidewalk and broke a two gallon jug on Hammond street above the Court House.—The contents ran down the street discoloring the snow for a rod or more and proved to be brandy, and of poor quality at that. It was probably, the stock in trade of some illegal dealer in vile liquors.

☞ The Portland Advertiser says we learn that Judge Wells has sent in his resignation as Judge of the Supreme Court.

A gang of ruffians paraded the streets of New Bedford on Tuesday night, breaking windows, brandishing knives and pistols, and committing other outrageous proceedings, threatening violence to Mayor French's party, &c. Finally they proceeded to Mr French's house, and began to attack it, and had broke a window, when a police force arrived and succeeded in effecting the arrest of three of the gang, named Daniel and Albert Greene, and a desperado by the name of Marshal from Providence, R I. Much excitement prevails in that city on account of this daring outrage.

☞ The Ellsworth Freeman a democratic paper says of the Nebraska Bill:

"Independent of party alliances we have but one opinion expressed relative to it, and that is of unqualified disapprobation of the bill, and its instigators, with the exception of now and then a petty office holder who feels constrained by the irresistible force of public patronage, to advocate this measure."

According to the official accounts the Russian troops in the principalities and Bessarabia, amount to a total of 156,500 men, with 620 pieces of artillery, of which seventy two are of the heaviest calibre.

Holloway's Ointment and Pills have effected an Astonishing Cure of an Abscess, that the Faculty pronounced Incurable.—Robert Parker, ... near Wisbeach, was afflicted with an abscess in the arm. He had been two years in a hospital and for a considerable time at home, but ... receiving the least benefit, and at last was given up by the faculty who pronounced him to be incurable; but after using Holloway's Ointment and Pills for a short time the wound was completely healed, and his health thoroughly restored. This can be attested by Mr. Abraham Catlin, and other respectable inhabitants of the parish of Wolsoken. ☞ See advertisement.

These Lectures will embrace the relation between the Soil and the Plant, the Cultivation of the Soil, the Food of Plants, Drainage, the pleasures of Country Life, &c.
Admission for the course 50 cents. Tickets to be had at the door and at the Bookstores.
Doors open at 7 o'clock.—Lecture to commence at 7½.
Bangor, March 11, 1854.

The Independent Clairvoyant BACK AGAIN!

MRS. A. L. NORCROSS, for the last ... country, from Vassalboro, Me. thankful for past favors, would announce to the citizens of this and vicinity, that she has been again prevailed upon to visit this place and has taken Rooms at the Penobscot Exchange Coffee House where she will attend to the Examination and Prescription of all Diseases that flesh is heir to. She has always been able in her clairvoyant state, to describe ... their true symptoms, and prescribe medicines for their cure. Rising 3000 persons have been examined by her within the last six years, and the greater part of them are happily cured of diseases of long standing, as her references and reports will show. Medical ... have been baffled by her great success.
☞ One and all come and test this glorious Science!
☞ Price for examination and prescription $1,00. No spectators allowed to be present during examinations.
Mrs. Norcross now furnishes the Medicines she prescribes, at reasonable prices if required.
Bangor, March 11, 1854.

☞ **To the Ladies.**—Hard's Golden Gloss for the Hair is a preparation which has no equal. It is highly perfumed, and imparts the fragrance of the most delightful flowers. It makes the hair SOFT, GLOSSY, AND BEAUTIFUL and causes it to grow luxuriously, preventing it from falling off or turning grey. It removes dandruff, prevents ... and keeps the scalp clean, smooth and healthy. It has cured nervous and sick headache in a single application. Ladies who have once used it ... will never be without it. ... Proprietor 341 Broadway New York. S. E. PERKINS Agent Bangor. an9 3m

THE AMERICAN'S FRIEND!

HOLLOWAY'S PILLS

To the Citizens of the United States—
I most humbly and sincerely thank you for the immense patronage which you have bestowed upon my Pills. I take this opportunity of stating that my ancestors were all American Citizens, and that I entertain for all that concerns America and the Americans, the most lively sympathies, so much so that I originally compounded these Pills expressly to suit your climate habits constitutions, and manner of living, intending to establish myself among you, which I have now done, by taking premises in New York. THOMAS HOLLOWAY,
38 *Corner of Ann and Nassau Sts, New York*

PURIFICATION OF THE BLOOD AND LIVER AND BILLIOUS COMPLAINTS,

The citizens of the Union suffer much from disorders of the Liver and stomach scarcely any are free from the sad effects of these destructive maladies, hence life wears fast ... in the wall ... at a certain period, when distressing ... many ... their teeth ... who ... to the heyday of life. Such sad evils may be effectual remedied by continually keeping the blood pure and the Liver and Stomach in a healthy action, when life will flow smoothly, and resemble ... where an eternal spring seems to reign—... regards the preservation of the human frame and ... can be effected ... I say ... that health and life can be prolonged for many years beyond their ordinary limits ... contained in the directions which ... box.

CASE OF WEAKNESS AND DEBILITY, OF 10 YEARS STANDING CURED BY HOLLOWAY'S PILLS

Copy of a Letter from Captain John Johnson, Astor House, New York, dated January 6th, 1854

To Professor Holloway, 38, Corner of Ann and Nassau Streets, New York

Sir—It is with ... heartfelt pleasure I have to inform you that I have been restored to health and ... by taking your Pills. For the last ten years I suffered from a derangement of the Liver and Stomach and was reduced to such an extremity that I gave up my ship, never expecting to go to sea any more, as I had tried every remedy that was recommended to me, but all to no purpose, and had given myself up to despair, when I was at last recommended to take your Pills. After using them for three months the result is that I am now in better health than I have been for eleven years past, and indeed as well as ever I was in my life. ... liberty to make this known for the benefit of others.
I am, sir, yours respectfully
(Signed) JOHN JOHNSON

These celebrated Pills are wonderfully efficacious in the following complaints.

Ague	Female Irregularities	Scrofula, or king's Evil
Asthma,	Fevers of all kinds,	Stone and Gravel
Bilious Complaints	Fits	Secondary Symptoms

Public Notice.

NOTICE is hereby given to the inhabitants of the City of Bangor, qualified to vote for Representatives, that warrants have been issued to HENRY B. FARNHAM, Constable of said City, to notify the said inhabitants to assemble at the following places in each of the Wards in said city on MONDAY, the 13th day of March inst., at 9 o'clock in the forenoon, to act on the following articles, to wit:

1st. To choose a Warden for each of said Wards.

2d. To choose a Ward Clerk for each of said Wards.

3d. To choose one Alderman, and three Common Councilmen for each of said Wards, and to give in their votes for a Mayor of said City.

Ward One will meet at the School House, corner of York and Essex streets, in said Ward.

Ward Two will meet at the City Hall, in said Ward.

Ward Three will meet at the School House on Hudson Street, in said Ward.

Ward Four will meet at the Hook and Ladder House, near the Court House, in said Ward.

Ward Five will meet at the School House on Pine Street, in said Ward.

Ward Six will meet at the Westerly School-house on Cumberland Street in said Ward.

Ward Seven will meet at the School House on Pearl Street, in said Ward.

Notice is also given that the Board of Aldermen will be in session at the Aldermen's Room, in the City Hall in said City on Saturday, the 11th day of March inst, from 9 o'clock A. M. to 1 o'clock P. M., and from 3 to 5 P M., to correct the lists of said voters.

Notice is likewise given that a quorum of the Board of Aldermen will be in session at the Aldermen's Room from 9 o'clock A. M. to 1 P. M. on the day of election, for the purpose of granting certificates to such legal voters as are not registered upon the Ward lists.

Warrants calling said meetings are posted up at the several places of meeting.

Washing made Easy and Pleasant,

BY THE USE OF BOSTON CHEMICAL

WASHING POWDER.

THIS Powder, prepared by a practical Chemist, is a superior article for Washing Clothes. The process of using is simple and easy, and clothes will not injure to the finest fabric. One package of the Powder will make two gallons of soft soap, superior in quality for all domestic uses.

Nothing exceeds this Powder after having been made into soft soap, for removing grease spots from woolen clothes and carpets.

Directions on each package of the Powder, which if followed will give, after a fair trial, general satisfaction.

India Rubber Goods.

SPRING TRADE, 1854.

D. HODGMAN, 27 *Maiden Lane* and 59 *Nassau Street*, invites the attention of his former customers and merchants generally, particularly Wholesale Buyers, to his immense stock of INDIA RUBBER GOODS, which he has now on hand and is daily receiving from his Factories including

COATS, CAPES, GLOVES, PANTS, OVERALLS, LEGGINGS, CAPS, KEEPING JACKETS, LIFE PRESERVERS, WHIPS, CARRIAGE CLOTH, PIANO COVERS, MACHINE BELTING, ENGINE PACKING, CROTON HOSE,

And every description of Rubber Goods manufactured.

The reputation of my Goods for their excellent quality is so well established as to render any further comment superfluous. It affords me great pleasure to inform Wholesale buyers of

Rubber Clothing,

That I am enabled to offer them inducements to purchase superior to what I have heretofore, and as I firmly believe superior to any that have been or can be offered them elsewhere.

Orders respectfully solicited and attended to with promptitude and despatch by

BROWN'S

BRONCHIAL TROCHES;

For the alleviation of Bronchitis, Hoarseness, Coughs, Colds, and similar Affections of the Throat.

THESE Lozenges are prepared from a highly esteemed recipe, for alleviating Bronchial affections, possessing peculiar properties which remove hoarseness and render the voice smooth and clear. Public Speakers, Singers, and other persons suffering from Affections of the Throat, Hoarseness, Colds, or longer or shorter duration, or other impediments of the voice will find these Lozenges efficacious in allaying any irritation of the Bronchial tubes, whether produced by Cold, Influenza, or any unusual exertion of the Vocal Organs in speaking or singing.

Prepared by JOHN I BROWN & SON Chemists, 445 Washington, (opposite Essex st), Boston

Messrs JOHN I BROWN & SON

Gentlemen—A knowledge of the benefits which are derived from the use of the Troches, led me to ... Boston, Sept 14, 1853. L F W LINE, M.D.

Boston, Aug 30, 1852.

Dear Sir—Your Bronchial Troches seem to me a simple and elegant form for administering in combination several medicinal articles long held in general esteem among Physicians in the treatment of Bronchial affections.

Very respectfully, GEO. F. BIGELOW, M D.

Sold by INGRAHAM & FULLER, Druggists, Bangor.

Australia Pioneer Line!

OR MONTHLY PACKETS, CARRYING the United States Mails—The famous clipper ship

NIGHTINGALE,

1,066 tons register, will be despatched early in April for Melbourne, as sixteenth ship of this line. The Nightingale was built for exhibition at the World's Convention in London, the ship is one of the sharpest and fastest sailing ships afloat, and her accommodations are not surpassed in point of comfort and elegance, having been built at an immense cost. Passengers and shippers who will pay the rates charged by the Great Britain, from Liverpool, will be guaranteed as to passage. Plans of the cabins and rates, will be forwarded by mail to intending passengers. For freight or passage apply to W. AMERON, 116 Wall street, New York

mch8

ISAAC NEWTON,

800 tons register, will be despatched as above. For freight (having principal part of her cargo engaged and ready to go on board, or cabin passage, apply to JOHN W ROGERS, Packet Office, lower end of India wharf, or to VERNON BROWN.

Agents at Melbourne, Messrs Caldwell, Tias & Co.

Tickets in the above line of Packets secured at FARR'S EXPRESS OFFICE, Bangor

New Brig for Sale.

Now on the stocks, of 400 tons burthen, 105 feet on deck about 7 feet hold, 26 feet beam—well adapted for the South ern lumber trade—built of the White Oak and Hard Pine, the frame put up in July last. She is well seasoned, and her work will compare with that of any one built on this river in past year—she will be ready for sea as soon as the ice is out of the river.

Any person desirous of purchasing a vessel of this class are requested to call and examine, and judge of her excellence for themselves.

Brewer, Jan 21, 1854 C OAKES,

FOR SALE:

Jack Gold Hunter,

This bark was built at Bangor—is four years old and is now discharging at New York from her second voyage from California.

She was built under the eye of her present owner, and no pains or expense either in materials or workmanship, were spared in her construction. Her dimensions are 107 feet keel; 25 feet beam, 11 feet hold, and measures 281 tons. She is copper fastened and coppered. The bends in the spring of 1852. She is a good sailer, having made her first passage home from California in 102 days.

Those wishing to purchase a vessel of her class will find it for their interest to examine her where she now lies. JAMES DUNNING

PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, WASHINGTON.

No. 76 State Street, opposite Kilby St., BOSTON.

IMPORTANT INFORMATION TO INVENTORS. The subscriber (late Agent of the U. S. Patent Office under the Act of 1837) determined to present advantages in applying for patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty as paid back by others) will be remitted by him in case of failure to obtain a patent and the withdrawal of such within thirty days after the rejection. Caveats, Specifications, Assignments, and all necessary papers and drawings for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can avail themselves of the experience of 20 years practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries, besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar. Assignments recorded at Washington.

R. H. EDDY, Solicitor of Patents.

"During the time I occupied the Office of Commissioner of Patents, R. H. Eddy, Esq. of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

PATENT OFFICE,
"R. H. EDDY, Esq. Boston, Mass.

Sir—Your facilities for the prosecution of any business connected with this office, are equal to those of any other agent. I am very respectfully, yours, &c. THOMAS EWBANK, Commissioner of Patents.

Androscoggin and Kennebec RAILROAD.

Winter Arrangement.

COMMENCING DECEMBER 1, 1853.

TRAINS will run in connection with Trains on the Grand Trunk Railway, as follows:

Leave Waterville at 8 40 and 11 20 A. M., arriving in Portland in season to connect with trains for Boston.

Returning—Leave Portland at 7 15 A. M. and 1 30 P. M., arriving in Waterville at 10 45 A. M. and 5 15 P. M.

Freight Train each way daily.

In connection with the above Trains are run to Kendall's Mills—Penobscot and Kennebec Railroad—leaving Waterville on the arrival of each train from Portland. Returning, leave Kendall's Mills for Waterville and Portland at 8 10 A. M. and for Waterville only at 2 45 P. M. Freight train leaves Kendall's Mills for Waterville at 3 15 A. M.

Through tickets are sold between all the Stations on this Road and the principal stations on the Eastern and the Boston and Maine Rail Road and Lowell. Passengers by either train arrive in Lowell same day.

Through tickets for Bangor, by Pinkham's line of Stages from Waterville, are sold at Eastern depot in Portland, at $4.00. Passengers in Boston or Lowell, for Bangor, will purchase tickets for Waterville, and receive from Conductor on his Road a tie ticket for Bangor, on payment of $2.00. Stages connect with trains at Waterville for all the principal towns East and North.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor). He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst case of ringworm.

Two or three bottles are warranted to cure the most desperate cases of rheumatism.

Three or four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the very worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing on the pastures, and along old stone walls, should cure every humor in the system, yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands, hums nor ha's about it, suiting some cases, but not yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know the effects of it in every case. It has already done some of the greatest cures ever done in Mass. I gave it to children a year old; to old people of sixty. I have seen poor, puny, wormy looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to a sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

NUMBER ALTERED.

NEW ENGLAND TRUSS MANUFACTORY.

JAMES FREDERICK FOSTER, MANUFACTURER OF

Ratchet and Spiral Trusses,

533 (opposite 616) Washington Street, 533. BOSTON, MASS.

ALL the various approved TRUSSES continually on hand.

Ladies waited upon by Mrs Caroline D. Foster, who has had twenty years' experience in the business.

He will keep a full supply of ready-made Trusses for Gentlemen and Ladies, Youths and Infants—Abdominal Supporters of five or six different kinds, such as Hulls, Chapin's Spiral, Cutter's, Fitch's, Ingalls', &c., &c.

TESTIMONIALS.

The following certificate from Dr John C. Warren, of Boston, was given 17 years since, but will last forever.

Boston, Jan. 5, 1853.

Having had occasion to observe that some persons afflicted with Hernia, have suffered much from the want of a skilful workman in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster to supply the deficiency occasioned by the death of Mr. Beath. After some months of observation of his work, I am well satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating to the variety of cases which occur. I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to these important articles.

JOHN C. WARREN, M. D.

The undersigned take great pleasure in recommending to the favorable consideration of those who are unhappily afflicted with Hernia, Mr. James Frederick Foster, as a skilful and competent person in the manufacture and fitting of Trusses. We have employed him (some of us over twenty years) and the close application of his abilities. His early advantages, his long experience in the business, the large number of individuals whom he has relieved in a variety of cases, render him, in our opinion, equal, if not superior, to any manufacturer of the article. His father, Dea. Gideon Foster, of Charlestown, was master of the Poor-house in the town for upwards of twenty four years, during which period Mr. Foster availed himself of the opportunity, and made application of Trusses in a great variety of cases, with great success, some of which were of a very complicated and distressing character.

It is well known to all who have occasion to wear a Truss, that its great excellence consists in its adaptation to the body, at the same time relieving the patient. Any ordinary mechanic may make a Truss, but none but a skilful practitioner can apply it in such a manner as to eventually, and oftentimes perfectly cure this important.

Our experience is convinced, without Mr. Foster has thoroughly acquired the knowledge. The certificate of Dr. J. C. Warren, and other eminent surgeons, with the has shown to us, fully sustain the opinion we here express.

Ayer's Cherry Pectoral

AND other popular Cough Remedies, for sale by INGRAHAM & FULLER.

MEDICATED INHALATION.

A NEW METHOD.

A MOST WONDERFUL DISCOVERY has recently been made by Dr. CURTIS, for the cure of Asthma, Consumption, Bronchitis, Coughs, Colds, and all Lung Complaints, by Medicated Inhalation. Dr. CURTIS'S HYGEANA, or INHALING HYGEAN VAPOR and CHERRY SYRUP, has accomplished the most wonderful cures of Asthma and Consumption in the city of New York and vicinity for a few months past, ever known to man. It is producing an impression on diseases of the Lungs never before witnessed by the medical profession. [See certificates in hands of Agents.]

The Inhaler is worn on the breast, under the linen, without the least inconvenience, the heat of the body being sufficient to evaporate the fluid, supplying the lungs constantly with a healing and agreeable vapor, passing into all the air-cells and passages of the lungs, that cannot possibly be reached by any other medicine. Here is a case of

ASTHMA CURED.

BROOKLYN, N. Y., Dec 20, 1853.

For about eight years I have been severely afflicted with the Asthma; for the last two years I have suffered beyond all my powers of description; months at a time I have not been able to sleep in a bed, getting what rest I could sitting in my chair. My difficulty of breathing, and my sufferings were so great at times, that for hours together my friends expected each hour would be my last. During the past six years I have had the aid and attendance of some of the most celebrated physicians, but have received no permanent benefit, and but little relief. I at length had the good fortune to procure Dr. Curtis's Hygeana or Inhaling Hygean Vapor and Cherry Syrup. At the time I first obtained it, I was suffering under one of my most violent attacks, and was in great distress, almost suffocating for want of breath. In less than ten minutes from the time I applied the Inhaler to my stomach, and took a teaspoonful of the Cherry Syrup, I was relieved in a great measure from the difficulty of breathing, and had a comfortable night. I have since continued it with the greatest possible benefit, and am now comparatively well. God only knows the amount of suffering this medicine has relieved me from. My advice to the suffering is—try it.

MARGARET EASTON.

CONSUMPTION CURED.

NEW YORK, Dec. 27th, 1853.

I came to New York in the ship Telegraph; my native place is St John, New Brunswick; when I reached this city my health was very poor; had a bad cough, raised a good deal of matter, which was frequently mixed with blood, had pain in my left side, and was very weak and emaciated. My friends and physicians pronounced my case Consumption, and beyond the reach of medicine. I accidentally heard of Dr. Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup, and obtained a package, which I verily believe was the means of saving my life. Soon after wearing the Inhaler I found it relieved the pressure on my lungs, and after a while the disease made its appearance upon the surface under the Inhaler. I took the Cherry Syrup as directed, and continued to do so, my cough gradually growing better, until it entirely left me, and I now consider myself cured. I still wear the Inhaler, as the use of it is rather pleasant, and believing it strengthening and purifying to the lungs, I feel unwilling at present to dispense with it.

JOHN WOOD.

Sold in Bangor only by SAM'L E. PERKINS, No 1 Kenduskeag Bridge.

feb9 3taw&w1m

CHERRY PECTORAL,

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Among the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyment, and even prolong the term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control the varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on, to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following—and refer further enquiry to my American Almanac, which the agents below named, will always be pleased to furnish free, wherein are full particulars and indisputable proof of these statements.

Office of Transportation, Laurens R R, S. C., Aug 4, 1851.

J C Ayer; Dear Sir—My little son four years old has just recovered from a severe attack of Malignant Scarlet Fever, his throat was rotten, and every person that visited him pronounced him a dead child. Having used your Cherry Pectoral in California, in the winter of 1850 for a severe attack of Bronchitis, with entire success, I was induced to try it on my little boy. I gave him a teaspoonful every three hours, commencing in the morning, and by ten o'clock at night I found a decided change for the better, and after three days use he was able to eat or drink without pain.

Its use in the above named disease will save many a child from a premature grave, and relieve the anxiety of many a fond parent. For all affections of the Throat and Lungs I believe it the best medicine extant. A feeling of the deepest gratitude prompts me in addressing you these lines,—but for your important discovery my little boy would now have been in another world.

I am yours, with great respect,
J. D. POWELL, Supt Trans., L. R. R.

Rock Hill, (Somerset Co.) N. J., July 21, 1843.

Dr. J. C. Ayer—Since your medicine has become known here, it has a greater demand than any other cough remedy we have ever sold. It is spoken of in terms of unmeasured praise by those who have used it, and I know of some cases where the least they can say of it is not too much for the good it has done. I take pleasure in selling it, because I know that I am giving my customers the worth of their money, and I feel gratified in seeing the benefit it confers.

Please send me a further supply, and believe me

Yours, with respect, JOHN C. WHITLOCK.

P. S. Almost any number of certificates can be sent you, if you wish it.

Prepared by J. C. AYER, Chemist, Lowell Mass.

Sold in Bangor by G. W. Emerson, G. F. Sargent, Guild & Harlow, S. E. Perkins, W. L. Alden, Tho's G. Brown, and by all other druggists.

Flour and Corn.

600 BBLS. FLOUR.—6000 Bushels White and Yellow CORN, for sale low by GEO. W. LADD.

DR. MORSE'S Invigorating Cordial,

—OR A—

Phenomenon in Medicine.

Health Restored & Life Lightened by

Dr. Morse's Invigorating Elixir, or Cordial.

For centuries, Medical science has been ransacking the vegetable and mineral kingdoms in search of something that should restore the lost or decaying energies of the nervous and muscular systems, without the drawback of subsequent prostration, which all stimulants, to its end, agencies had hitherto entailed.—That something has been found. It is a vegetable production, brought from the stony deserts of Arabia the Stony, by the celebrated Professor Morse, well known as a distinguished member of the leading scientific societies of the Old world, and equal distinguished as a physician, a chemist and a traveller. The juices of this herb, concentrated and combined with other vegetable ingredients, are now producing results hitherto unheard of in this or any other country. At first the cures attributed to Prof. MORSE'S INVIGORATING ELIXIR OR CORDIAL, were deemed fabulous. The public often deceived could not believe so simple and so timely a remedy announced by the discoverer. But facts, undeniable facts attested by witnesses of the highest class and character, are now triumphant over all doubts. Incredulity is overthrown, by a mass of testimony which is perfectly irresistible.

The ELIXIR remedies, in all cases, the deplorable evils arising from a misuse or abuse of the various organs which make up the wonderful machine called man. It restores to full vigor every delicate function connected with that mysterious compound agency of matter and mind, necessary to the reproduction of human life. To persons of feeble muscular frame, or deficient in vital power, it is recommended as the only means of communicating that energy which is necessary to the proper enjoyment of all the natural appetites, as well as the higher mental attributes. Its beneficial effects are not confined to either sex or to any age. The feeble girl, the ailing wife, the listless, enervated youth, the over worn man of business, the victim of nervous depression, the individual suffering from general debility, or from the weakness of a single organ, will all find immediate and permanent relief from the use of this incomparable renovator. To those who have a predisposition to paralysis it will prove a complete and unfailing safeguard against that terrible malady. There are many, perhaps, who have so trifled with their constitutions, that they think themselves beyond the reach of medicines. Let not even these despair. The Elixir deals with disease as it exists, without reference to causes, and will not only remove the disorder itself but

REBUILD THE BROKEN CONSTITUTION.

The derangements of the system, leading to nervous diseases, and the forms of nervous disease itself, are so numerous that it would require a column to enumerate the maladies for which this preparation is a specific. A few, however, may be enumerated, viz: neuralgia, tic doloreux, headache, incipient paralysis, hysteria, palpitation of the heart, spinal affections, muscular debility, tremor, flatulence, a pricking sensation in the flesh, numbness, torpidity of the liver, mental depression, weakness of the will, indisposition to move, faintness after exercise, broken sleep and terrifying dreams, inability to remain in one place or position, weakness of the procreative organs, sexual incompetency, melancholy, monomania, fluor albus, sinking at the stomach, female irregularities, a chronic tendency to miscarriage, emaciation and all complaints growing out of a free indulgence of the passions, and all barrenness that does not proceed from organic causes beyond the reach of medicine.

Whenever the organs to be acted upon are free from malformation or stricture disease it is averred that

MORSE'S INVIGORATING ELIXIR

Will replace weakness with strength, incapacity with efficiency, irregularity with uniform and natural activity, and this not only without hazard of reaction, but with a happy effect on the general organization. Bear in mind that all maladies, wherever they begin, finish with the nervous system, and that the paralyzation of the nerves of motion and sensation is physical death. Bear in mind, also, that for every kind of nervous disease the Elixir Cordial is the only reliable preparation known.

CURE OF NERVOUS DISEASES.

No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the diseased, debilitated and shattered nervous system, whether broken down by excess, weak by nature, or impaired by sickness, the unstrung and relaxed organization is at once braced, revivified, and built up. The mental and physical symptoms of nervous disease vanish together under its influence. Nor is the effect temporary; on the contrary, the relief is permanent, for the cordial properties of the medicine reach the constitution itself and restore it to its normal condition.

LOSS OF MEMORY,

Confusion of ideas, rush of blood to the head, melancholy, mental debility, hysteria, wretchedness, thoughts of self-destruction, fear of insanity, hypochondriasis, dyspepsia, general prostration, irritability, nervousness, inability to sleep, diseases incident to females, decay of the propagating functions, hysteria, monomania, vague terrors, palpitation of the heart, impotency, constipation, etc., etc., from whatever cause arising it is, if there be any reliance to be placed on human testimony, absolutely infallible.

A GREAT MEDICINE FOR FEMALES.

The unparalleled effects of this great restorative in all complaints incident to females, mark a new era in the annals of medicine. Thousands of stimulants have been invented—thousands of invigorants concocted—all purporting to be specifics in the various diseases and derangements to which the delicate formation of woman renders her liable. The result has heretofore been uniform. These nostrums have indeed imparted a momentary vivacity to the nervous system, a transient and delusive vigor to the muscles, but this flash of relief has been succeeded by a depression and prostration greater than before, and the end has too often been utterly to paralyze the recuperative power of the nerves and the vital organization, and finally to destroy the unhappy patient.

EVERY WOMAN OF SENSE,

who suffers from weakness, derangement, nervousness, tremors, pains in the back, or any other disorder, whether peculiar to her sex, or common to both sexes—to give the Invigorating Cordial a trial.

MARRIED PERSONS,

or others, who [illegible] this Cordial after they have used a bottle or two, a thorough renovation of the system. In all [illegible] the happy parents of healthy offspring, [illegible] would not have been so, but for this extraordinary [illegible]. And it is equally potent for the many [illegible] which it is recommended. Thousands [illegible] have been restored by using it, and [illegible] in which it failed to benefit them.

PERSONS OF PALE COMPLEXION,

or consumptive [illegible] are restored by the use of a bottle or two to [illegible] vigor, changing the skin from a pale, yellow [illegible] color, to a beautiful florid complexion.

TO THE MISGUIDED.

These are [illegible] produced by [illegible] of the sad and melancholy effects [illegible] habits of youth, viz: weakness of the back and limbs, pains in the head, dimness of sight, loss of muscular [illegible], palpitation of the heart, dyspepsia, nervous irritability, derangement of the digestive functions, general debility, symptoms of consumption, &c. Mentally, [illegible] the fearful effects on the mind are much to be dreaded, [illegible] of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self distrust, love of solitude, timidity, &c., are some of the evils produced. All thus afflicted

BEFORE CONTEMPLATING MARRIAGE,

should reflect [illegible] a sound mind and body are the most necessary requisites to promote connubial happiness, indeed, without [illegible] the journey through life becomes a weary pilgrimage, the prospect hourly darkens the view, the mind [illegible] shadowed with despair and filled with the [illegible] reflection that the happiness of another becomes blighted with your own.

PARENTS AND GUARDIANS

are often [illegible] with respect to the causes and source of disease [illegible] sons and wards. How often do they ascribe to [illegible] causes of wasting of the frame, idiocy, madness, [illegible] of the heart, indigestion, derangement of the [illegible] ous system, cough and symptoms indicating consumption, when the truth is, that they have been indulging [illegible] a pernicious, though alluring practice, destructive [illegible] to mind and body.

CAUTION.

Dr. Morse's Invigorating Cordial has been counterfeited by unprincipled persons.

In future the genuine Cordial will have the proprietor's fac simile pasted over the cork of each bottle, and the following words blown in the glass—

Dr. Morse's Invigorating Cordial,
C. H. RING, Proprietor, N. Y.

The Cordial is put up highly concentrated in pint bottles.

Price—$3 00 per bottle; two for $5,00, six for $12.00.

C. H. RING, Proprietor,
192 Broadway, New York.

Sold by Druggists throughout the United States, Canadas, and West Indies.

AGENTS.

Bangor—H. H. VEGEER.
Augusta—E. FULLER.
Portland—E. MASON.

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious diseases—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs, Female complaints, &c., &c. Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails, besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Fevers, Bilious symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the eminent gentlemen to whom we are allowed to refer for these facts, are

PROF. VALENTINE MOTT, the distinguished Surgeon of New York City.

Doct. A. A. HAYES, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

IRA L. MOORE, M. D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice.

H. C. SOUTHWICK, Esq., one of the first merchants in New York City.

C. A. DAVIS, M. D., Sup't and Surgeon of the United States Marine Hospital, at Chelsea, Mass.

Did space permit, we could give many hundred names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process, in a state of purity and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formula by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see the wrapper on the Box.

Prepared by JAMES C. AYER, Practical and Analytical Chemist, Lowell, Mass.

G. W. Emerson, G. F. Sargent, Guild & Harlow, S. E. Perkins, W. L. Alden, Thos. G. Brown, and by all other druggists.
